As soloist at the World headquarters of the Christian Science Church in Boston, Julia has led a groundbreaking evolutionary movement of music in the church for the past six years advancing music into the 21st century.

As a Classical Crossover artist, Ms Wade has enriched the airwaves with an elegant and more contemporary sound, bringing accessibility to sacred music while steadily maintaining its time-honored traditions.

Every Day, is an 8-song CD complete with a free additional Digi-Book, an in-depth look at the evolution of the process and development of the new work compiled by both Ms Wade and her producer Peter Link. This cutting edge package promises to both inspire and inform through its music and creativity.

Says Julia, "*The title refers to the things I think about every day: the challenges, the prayers, and the victories – in my life, my community and my world. The songs explore not only the fears and limitations that confront us, but also the solutions that are available to us when we become still enough to hear them.*"

This new CD expands the meaning of Inspirational to include her own personal commitment to the healing of international issues like human injustice, hunger and world peace. Julia states that, "*The idea of this CD is to apply the sacred to all parts of our every day lives – both on a personal and a universal level.*"

With a mixture of pop, folk, theatrical and classical sounds, *Every Day* is sure to inspire not only her loyal fan base but also extend her reach far beyond. Additional to the sacred songs on the album like a new setting of The 23rd Psalm are songs about love (listen to: [Nothing Only Love](#)) and also inspirational personal encounters (listen to: [Woman On A Train](#)).
